

9.3.F	Variations on the Traditional Comprehensive-Holistic Neuropsychological Rehabilitation Program.....	314
9.3.G	Long-Term and Short-Term Goal Writing in Comprehensive-Holistic Rehabilitation.....	315
9.3.H	Case Example in Comprehensive-Holistic Rehabilitation.....	317
9.4	Study Questions and Group Discussion Points.....	323

## CHAPTER 10

### Implementation of Cognitive Rehabilitation

Larissa Swan, MS, OTR  
 Christopher Carter, PsyD, CBIST  
 April Groff, PhD

10.1	What Good Is This Knowledge If It Is Not Put Into Practice?.....	327
10.2	Background.....	327
10.2.A	Science-to-Practice Gap.....	327
10.2.B	Implementation Science.....	327
10.2.B.1	KNOWLEDGE IMPLEMENTATION OVERVIEW OF MODELS.....	327
10.2.B.2	KNOWLEDGE-TO-ACTION CYCLE.....	328
10.2.B.3	CORE IMPLEMENTATION COMPONENTS.....	328
10.3	Practical Model for Implementation Applied to the ACRM Cognitive Rehabilitation Manual.....	330
10.3.A	Step 1: Identify the Problem or Potential Improvement Needed.....	330
10.3.B	Step 2: Identify the Evidence-Based Intervention to Address the Identified Problem or Area Needing Improvement.....	330
10.3.C	Step 3: Gain Administrative Support.....	330
10.3.D	Step 4: Select/Engage the Implementation Team to Adapt Evidence-Based Interventions to Local Context.....	335
10.3.E	Step 5: Train/Coach/Consult With Working Teams.....	337
10.3.F	Step 6: Monitor Knowledge Use.....	339
10.3.G	Step 7: Evaluate Outcomes.....	339
10.3.H	Step 8: Maintain Facilitative Supports for Sustainability.....	340
10.4	Summary.....	340
10.5	Conclusions.....	341
10.6	Case Study: American Congress of Rehabilitation Medicine Cognitive Rehabilitation Manual Implementation Survey (2016).....	342
10.8	Discussion Points.....	344
